
AT WE TAKE SECURITY SERIOUSLY.

EVERY NEW BigSteelBox COMES WITH A LOCK BOX

A lock box is critical to protecting your padlock from bolt cutters. This heavy duty steel encasement makes it extremely difficult for thieves to access your lock! We rent and sell padlocks that fit our lock boxes and get delivered with your BigSteelBox.

All You Need is a Padlock

5/mo
to rent

35
to own

Used Boxes May Need a Lock Box

Not all of our used BigSteelBoxes will have a Lock Box pre-installed. If security is important to you, we always recommend installing a lock box. Whether you're renting or buying a used Box, we can install a Lock Box to give you the peace of mind you need to know your belongings are safe!
